

RONA

Category 2 Aluminium Catamaran

The Rona is a versatile vessel and can easily be reconfigured to provide a diving support role with stern gates that open to allow safe dive access and egress.

The Rona's suite of electronics includes [GPS](#), [radar](#), [sounder](#), [autopilot](#), [AIS](#) and [plotter](#) allowing accurate positioning and minimal down time.

Rona is suitable for:

- > Dive Support
- > Crew Transfers
- > Survey and Sampling.
